# Why Choose Keystone?

## AMERICAN-MADE WORLD CLASS MANUFACTURING

Keystone is proud to be American-Owned and Made. We manufacture our products across the country at numerous manufacturing facilities.

## NETWORK OF DEALERS & AUTHORIZED CONTRACTORS

You can find our products throughout the country, with sales locations that service both contractors & dealers. We have a valued dealer network who are knowledgeable about our products and have our products on display. We take great pride in providing in-depth regional training programs for contractors to become Authorized Keystone Hardscapes Contractors. To connect with a dealer or authorized contractor in your area, please visit [keystonehardscapes.com](http://keystonehardscapes.com)

## EXPERIENCED PROFESSIONAL ADVICE

We are more than your supplier, we are your partner. We recognize the importance of sales support and inventory. We have a phenomenal team that's trained to be your resource. Our knowledgeable staff provides expertise from sales support and installation techniques, to delivery.

## KEYSTONE HARDSCAPES WARRANTY INFO

For more information regarding our product warranty visit [keystonehardscapes.com](http://keystonehardscapes.com)

# FIND YOUR AUTHORIZED CONTRACTOR TODAY

Our goal is to provide you with quality paver & wall products for your project. We understand that it's a large investment. If you need help with finding the right contractor for your project, we can help. Our goal is to recommend qualified, knowledgeable hardscape contractors. The hardscape contractors found on our Keystone Authorized Contractor list have shown a proven knowledge on the basics of paver and retaining wall construction and installation. Each company listed has at least one individual on staff that has attended our training course and passed our Installer Exam.

While we try our best to recommend qualified contractors for your project, Keystone does not guarantee the workmanship of the installer. Please ask your selected contractor for references and about any warranty or guarantees they might provide on workmanship.

**Scan the code to  
get in touch with  
our contractors.**

## FOLLOW THESE STEPS TO SELECT THE IDEAL CONTRACTOR TO BRING YOUR PROJECT TO LIFE.

### STEP ONE

It's always a good idea to interview several contractors and find the best match for your project and personality. The contractor you choose will be at your project for days or weeks. Talk about working hours, how many people to expect at the project, what kind of equipment they will be using. Make sure you have a good rapport with the person and communicate your wants and needs.

**Make sure to ask if they are a  
Keystone Hardscapes Authorized Contractor.**

### STEP TWO

Once you decide on the work you want to complete, confirm that the contractor has done that type of work in the past. Ask for pictures, references, or go by other projects they have completed and make sure you are happy with their quality of work.

### STEP THREE

Once you reward the project to a specific contractor, get a written contract of the work to be performed. Make sure you understand the scope of your project and that any changes midway through the project, could result in additional costs to the project.

### STEP FOUR

Once your project is complete, we would love to see finished photos! Photos can be submitted to Keystone Hardscapes at [photos@keystonehardscapes.com](mailto:photos@keystonehardscapes.com). Photos may be used in social media or future catalog publications.

# Utilize our network of authorized contractors to build your happy place

We have a valued distributor network throughout the country who are knowledgeable about our products and have our products on display. We take great pride in providing in-depth regional training programs for contractors to become Authorized Keystone Contractors.

# ACCESSORIES

**SB-7700 SEMI-GLOSS JOINT STABILIZING SEALER WITH ANTIFUNGAL FILM PROTECTION** – Joint Stabilizing Sealer is a water-based, single component, self-crosslinking acrylic co-polymer sealer and joint sand stabilizer with outstanding durability. SB-7700 is specially formulated with an antifungal designed to help inhibit the growth of mold, moss and algae on the sealer film when applied to horizontal or vertical surfaces.

**SB-8700 WET LOOK JOINT STABILIZING SEALER WITH ANTIFUNGAL FILM PROTECTION** – Wet Look Joint Stabilizing Sealer is an advanced premium acrylic sealer that is 'rain safe' 90 minutes after application and will not yellow under exposure to sunlight. It is a 3 in 1 product, it enhances surface tone with semi-gloss finish, protects the substrate surface and stabilizes joint sand. SB-8700 is specially formulated with an antifungal designed to inhibit the growth of mold, moss and algae on the sealer film when applied to horizontal or vertical surfaces.

**EFFLO OFF EFFLORESCENCE, MINERAL & SALT DEPOSIT CLEANER** – Efflo Off is a buffered, non-acid, organic salts, technologically advanced concentrated cleaner designed for the removal of efflorescence, mineral and salt deposits from virtually any type of hardscape surface with minimal or no brushing. Efflo Off's unique Clean Rinse Technology allows residue to be quickly and easily rinsed away with a high or low pressure washer.

**SUPERIOR STRENGTH SOLVENT-BASED ADHESIVE** – SRW Adhesive is the strongest adhesive of its kind. It is formulated for retaining walls, pavers, block, masonry, concrete, aluminum, steel and most common landscaping materials. Superior strength and longevity, works on wet or frozen surfaces, extrudes down to 10°F, will not freeze, permanent bond and for interior/exterior use.

**POLYMERIC SAND** – Polymeric Sand is a precise mixture of polymer binders and clean natural sand. Polymeric Sand will bond with the pavers/stones adding strength to the joint as well as reliability to the pavement system. It is ideal for use on any paver surface such as sloping areas, driveways, patios, pool decks, sidewalks, etc.

**SNAP EDGE PAVER RESTRAINT** – Edge restraints secure the hardscape system and are a necessity in any hardscape project installation if you want it to look beautiful through the years. To avoid the high cost of paver edge restraint failure and ultimately protect your reputation, carefully consider the many factors that affect the edge restraint's performance over the lifetime of a paver project.

BEFORE - NO SEALER

AFTER - WITH SEALER

Contact Your Local Representative for availability on the full line of QUIKRETE® products such as bagged concrete mixes, concrete repair products, and masonry products.

QUIKRETE and its subsidiaries (collectively QUIKRETE) reserve the right to improve its products and make changes to its specification and design without notice. The information contained herein has been compiled by QUIKRETE and to the best of its knowledge, accurately represents Keystone Hardscapes products and how it may be used in the applications which are illustrated.

Site conditions, including load pressures acting on the wall, soil types and drainage conditions, may vary. Final determination of the suitability of the product for the use contemplated and the manner of product use are the sole responsibility of the user. Good construction practices and local building codes require the use of an engineered design when constructing retaining walls or freestanding walls in many conditions. Structural design and analysis should be provided by a qualified engineer.
